

## Landowner Consultation

**Australia Pacific LNG is committed to respecting the rights and interests of individual citizens, organisations and communities in the areas in which the Project will operate. We will work with all parties potentially impacted by the construction and operation of the Project.**

Specifically this includes landowners with properties located in the gas fields and those who will have pipeline construction taking place in their vicinity.

### Building partnerships

We employ a team of dedicated Landowner Liaison Officers (LLO) to help guide property owners through the CSG exploration and production, and pipeline construction processes.

These LLOs seek to fully understand the nature of individual properties including future business plans and current land use so that we can minimise the impacts of our operations.

### Working together

We promise to:

- Be open, honest and trustworthy in our dealings with you and we will consistently deliver on our commitments
- Strive to achieve fair and mutually beneficial outcomes in all our dealings with you

- Build and maintain positive working relationships with you to ensure the coexistence of sustainable agriculture and gas production over the long-term, and
- Always be available to listen and discuss any questions or concerns you may have on specific matters.

We will look to develop business-to-business opportunities which will deliver mutually beneficial outcomes to both parties wherever possible.

### For more information

For enquiries about the gas fields or pipeline call **1800 526 369** or email **contact@aplng.com.au**

For enquiries about the Gladstone operations and LNG facility call **1300 776 205** or email **aplng.gladstone@conocophillips.com**
